sue bauer Miriam we are excited to have you join us today!

CCS eLearning Everyone gets Tech issue now and then

Miriam Madill Thanks, Sue!

sue bauer CCS eLearning... that's the truth! We have 1 of 2 working. Please stay tuned.

sue bauer Thank you for waiting. We are going to try for another log in attempt

sue bauer and go for it!

sue bauer Here we go!

George Victor Hello everyone.

Carol Beyner Hello!

Kelvin Thompson are the slides advancing for everyone?

Chris Clark Not seeing slides

Kelvin Thompson i just see Alex's photo

Laurie Fox I don't see slides either

Carol Beyner yes, but it's small. next to the headshots

Chris Clark There we are

Sarah Sproule thanks

Paul Meahan better
BlendKit UCF

We apologize for the slide issue. We will fix this in the recording once the webinar is over.

Kelvin Thompson

see the links underneath the video feed... Presentation File; Week 02 Poll; and (eventually) chat archive

Laura Gekeler

we're looking forward to seeing what people say for "other"

Kelvin Thompson

"other" is always interesting. no doubt

Kelvin Thompson

for formal Q&A to be considered by facilitators, please preface questions with "QUESTION"

Kelvin Thompson

otherwise we can just interact w/ each other in the chat

Mário Relvas

numbers, I did post about this in our Discussions

Laura Gekeler

QUESTION: Bb is not the only LMS which allows a Forum post before a student can see others. Also, Piazza is helpful for anonymous asynchronous Q&A. Any experience with that?

sue bauer

Thanks Laura. We will get that question to Paige.

Hector Ortiz

QUESTION. In blended curses, particularly the asynchronous portion, the interaction is bridged to learn more from each other?

Hector Ortiz

Do you agree? Or it depends on the level (under graduate/graduate) or subject matter?

CCS eLearning

Amen

CCS eLearning

Discussions are the perfect tool for some things, and the worst tool for others.

iRonMrx

@CCS eLearning: examples of both?
Paul Meahan

So you're asking your students to do something Congress can't do?

Sue Bauer

iRonMrx

I thought we're setting the bar at a normal level, not according to our dysfunctional, politicized legislature.

Paul Meahan

Ack! I wish you had time to address that "canned answer" question...

Legionarei

**QUESTION:** If the instructor interacts with students in a post/discussion board forum, how do we avoid the students automatically "agreeing" with the instructor? Apologies if this was addressed.

Legionarei

Got stuck on another conference call and mised a bit

Paul Meahan

I think it should also be addressed more directly, legion...

CCS eLearning

Yep, forced interaction is awful. The peer-to-peer interaction needs to be valuable to the student themselves.

Marcel Schmitz

Thank you

Jarrod Ratcliffe

@legionarei I think facilitating without directly shutting down alternative opinions as best as possible. Perhaps you can approach it from a Socratic perspective as well...

Paul Meahan

It's such a problem, CCS. There is a whole swath of students who are simply motivated by grades, especially if you are teaching non-elective, unpopular courses.

Hector Ortiz

Thank you very much. It was very good. is possible to know from the administrators if we have missed any assignment or expected activity?

Chris Clark

How many people are registered right now?
legionarei@jarrod I see that happening a lot in my grad courses but it's a different type of student from the undergrad stuff I teach. I might try the same techniques and see how they react

Chris Clark... registered in BlendKit, that is

Ernest Hlongwane I am in South Africa and I missed the starting time. Can I be clarified as to what is the exact time for the Webinar while in South Africa?

Kelvin Thompson@Chris Clark over 1300 in BlendKit2017 currently

Kelvin Thompson@Ernest Hlongwane we started at the top of the hour (38 minutes ago).

Chris Clark@Kelvin Thompson thanks!

Kelvin ThompsonOLC Innovate will be great! virtual attendance options are still available

Paul MeahanWhat is the deadline for DIY assignment submission?

Alistair Cullum@Ernest Hlongwane The U.S. went on daylight savings time this weekend, so our clocks moved ahead one hour.

Kelvin Thompson@Paul Meahan suggested due dates are weekly (by Monday's webinar), but really deadline is open until course closes in April

BlendKit UCFWebinars start at 1pm (Eastern Standard Time) every Monday during the course.

Marcel SchmitzOke thanks for the due date. I still want to submit the week 2 ones

Paul Meahan@Kelvin Thompson Thanks, man. I wanted to get it done every week, but this week has been wild at work!

Alistair Cullum@Ernest Hlongwane So whatever time 40 minutes ago was for you, it should start at that time next week.

Kelvin Thompson@Paul Meahan Canvas Network course closes for assignment submission on April 10
Paul Meahan@Alistair Cullum That is the most Daylight Saving answer ever...

Kelvin Thompson@Paul Meahan understood re: goal of weekly submission. that's why there's a LOT of latitude/flexibility in this open course

legionareiWe are on spring break here so it's the only time I get to get things done, hopefully I can be a little more proactive with week 3 lol

iRonMrxNot quite thousands...1,300...

iRonMrxCan you start using the Canvas badging so we can see how that works.

iRonMrx?

Ernest Hlongwane@ Kelvin Thompson, I thought the announcement was that the Webinar is locked until 7H30.

iRonMrxWhat email address are the Credly badges coming from?

Hector OrtizThanks again.

legionareiThanks! I wish I was there with you guys, tired of snow!

Paul Meahan@Ernest Hlongwane The 'assignment' (i.e. the "I participated in the webinar..." statement) is locked until 1:30pm EST

may leeThanks

Dr. Paulson SkerritHow do we ensure that online quizzes in blended courses are valid and reliable given that students can use resources to answer question or collaborate in a number of ways?

Kelvin Thompson@iRonMrx CanvasBadges don't have as much utility (outside of Canvas) in our opinion. we've had much more success with Credly (via a middleware integration)
Paul Meahan: I'm confused about the badges as well, iRon...

Paul Meahan: I haven't been prompted to sign up for a Credly account or anything afaik

Kelvin Thompson: @Paul Meahan do u have a question re: badges?

iRonMrx: @Kelvin, thanks, but this means some back-end integration work for true Canvas integration, doesn't it?

Kelvin Thompson: @Paul Meahan if you have submitted any assignments in Canvas and they are marked "complete," you should have received a badge notification at the email w/ which u registered for the course.

Kelvin Thompson: @Paul Meahan if u don't already have a Credly account, u will be prompted to create one when attempting to "claim" the badge via the notification email.

Paul Meahan: @Kelvin Would it be from "Canvas Notifications"?
