MORNING BLEND PROCESS MODEL COURSES EFFECTIVE PRACTICES EVALUATION RESOURCES FACULTY DEVELOPMENT RESEARCH ABOUT

### Model Courses

This section of the Toolkit offers "template" models for two core general education courses: [Composition](#) and [Algebra](#). These models are available in two formats. The first format is as an IMS Content Package that can be imported into your own institutional course management system (CMS) and revised as necessary to suit your own style, formatting, and institutional needs. The second format is as a stand-alone Microsoft Word document containing the extracted online blended content that can be used to recreate the course in any online format or CMS you wish.

In addition, this section also includes a [generic blended course structure](#) that you may find useful in designing your own blended learning courses.
