Baiyun Ch Welcome Kelvin

wendy sandstrom Hello \o/

The Learning Network Hello. Looking forward to the webinar.

Kelvin Thompson still never sure whether i \*have\* to reload screen to kickstart the stream, but it sure seems like it

Hector Ortiz Hello. Glad to come back.

Kelvin Thompson hi @Hector Ortiz @The Learning Network @wendy sandstrom

wendy sandstrom Yo, @Kelvin Thompson

Kelvin Thompson hopefully u r fully caffeinated, @wendy sandstrom

wendy sandstrom half full, but I have a BOGO at Caribou after work, haha

Kelvin Thompson "it depends" is my life philosophy

BlendKit UCF

wendy sandstrom exactly @BlendKit UCF

wendy sandstrom the topic of cheating always comes up when we have conversations near that topic at workshops... especially from faculty who are not online yet

Kelvin Thompson "cheating" is when of those things.... it gets waved around, but once you start addressing it one step at a time it is not nearly so scary

Kelvin Thompson shameless plug on Steven's behalf: he hosts a great new podcast called "Instruction By Design." it is worth a listen! Google ASU "Instruction By Design" podcast (or look on your podcatcher of choice)

Dr. Paulson Skerrit That has been my experience also. Its the faculty either being influenced by others who are not online and not even using the technology

BlendKit UCF <https://itunes.apple.com/us/podcast/i...>

wendy sandstrom Thanks @Kelvin Thompson

Kelvin Thompson I dig the low stakes stuff.... but it \*is\* work to manage

Kelvin Thompson excellent point re: no such thing as actual "cheat proofing"

Steven Crawford Thanks for the plug! Follow @IBD\_Podcast

wendy sandstrom Followed! @Steven Crawford I look forward to a new podcast for my daily commute

Kelvin Thompson do u synchronous folks have stuff to ask Steven or Alex?

wendy sandstrom QUESTION: (this may be too specific, so generalize if needed) wondering what they recommend to have as focus areas for Prof Dev for faculty in this area? (I am an instr designer)

wendy sandstrom^as far as resources and training (asych or sych)
